EDUCATION IN THE FAST LANE BLOODHOUND SSC PREPARING TO BREAK THE LAND SPEED RECORD

**Merseyside and North Wales
Region**

EDUCATION IN THE FAST LANE BLOODHOUND SSC

BY DR JOHN LANHAM

Dr John Latham, Director –
Bloodhound@University, will engage
the audience with Bloodhound SSC
developments both technically and
educationally.

Members and Non-Members welcome
Registration is preferred, for catering
purposes (prior to the lecture)

Come along and learn about the
challenges of designing and building
a car to raise the world land speed
record to 1,000 mph. Bloodhound
though is not just about the car – its
real “drive” is education.

The lecture will describe some of the
technology but also the innovative
education approaches that are being
used to engage schools, colleges or
university students – so you can be
a part of this project.

**Event to start at 18:00 on
Thursday 28th November**

Walker Lecture Theatre, Harrison
Hughes Building, University of
Liverpool, Brownlow Hill, L69 3GH.
