<b>Terms &amp; Conditions</b>			
<hr/>			
Professional Institution (Optional)		<input checked="" type="checkbox"/>	
<p>From time to time, we are asked by Professional Institutions to provide them with names, contact details and details of volunteering for STEM Ambassadors who are members of their Institution. If you are content for your details to be passed to the Institution(s) of which you are a member please tick this box</p>			
BEIS (Optional)		<input checked="" type="checkbox"/>	
<p>From time to time, we are asked by the Department for Business, Innovation and Skills, the Department which funds the STEM Ambassadors Programme, to provide them with the names of STEM Ambassadors who may wish to be invited to attend certain events. If you are content for your details to be made available for this purpose please tick this box</p>			
Employer (Optional)		<input checked="" type="checkbox"/>	
<p>From time to time, we are asked by employing organisations to provide them with names, contact details and details of volunteering for STEM Ambassadors who work for them. If you are content for your details to be passed to your employer, if requested by them, please tick this box</p>			
DBS Update Service - ongoing permission (Optional)		<input type="checkbox"/>	
<p>The Disclosure and Barring Service Update Service allows STEMNET (with your permission) to check online for any changes to your DBS Certificate since it was issued (after 17 June 2013). This means that you may not need to apply for another DBS check again, and that we can check your certificate with DBS as required to ensure the information recorded is current. The Update Service status check result will only show whether or not there has been a change and not the details of any change to your Certificate since it was issued. You will receive notification from DBS when your Update Service record has been checked and you can see a full list of the organisations that have carried out a Status check from your online Update Service account. Please tick this box to confirm</p>
