Hong Kong Aero Engine Services Ltd. (HAESL) provides world-class aero engine and component repair services to many of the world’s most respected airlines that have chosen Rolls-Royce to power their fleet of Airbus and Boeing Aircraft.

Combining the strength of Rolls-Royce as an Original Equipment Manufacturer (OEM) and SIAEC’s experienced of more than 30 years repair and overhaul expertise on Rolls-Royce engines, HASEL has become one of the world’s most respected engineering names in offering the highest quality and most comprehensive engine repair and overhaul service in aviation sector.

On July 28, 2012, the IMechE HK Branch organized a technical visit to HASEL. There were about 25 participants to take part on this visit. The technical visit provided a good opportunity to our younger engineers to understand more about maintenance works of jet engine in aviation industry. During the visit, HASEL demonstrated their ability in jet engine maintenance, the whole working sequence of jet engine’s maintenance and their state-of-the-art facilities of HASEL.

To the success of this visit, we would like to thank Ir Tonny Yuen of HASEL for his outstanding presentation and tour guide for the whole visit.
