WHERE: Novotel Hotel, 3 Park Home Avenue, North York, Ontario, M2N 6L3 - *Stage Door* room
DIRECTIONS: See map overleaf. Parking vouchers will be given out at the event
REGISTRATION: Please contact Peter Dennis at peterdennis@interim55.com or at (647) 821-1474

Our Speaker
Kayyoun Ali is a Senior Project Manager at Morrison-Hershfield with over 35 years'

experience in project management, design and construction. He graduated from the George Brown and Radio College with a Certificate of Qualification and Technician Certificate. Mr. Ali spent 33 years at the Ministry of Transportation managing the maintenance and modification of the Electrical and Advanced Traffic Management Systems (ITS) in the GTA and participated in the design of the provincial ITS infrastructure. Since retiring from the MTO Mr. Ali worked at AECOM Construction in the capacity of Electrical Project Manager for the New Quito Airport in Ecuador, and on Road and ITS Construction Projects in Central Region (GTA); before joining Morrison Hershfield.

Abstract:

The main goals of Intelligent Transportation Systems (a term coined over two decades ago) are to reduce traffic congestion, pollution levels, and to control the number of road accidents.

It is applied to commercial, public and private transportation; supplying information and applying controls using existing infrastructure and systems as well as overseeing the introduction of new sensors, communication channels and interfaces, and improved data collection and processing, enabling higher traffic volumes on existing roads.

Novotel North York
