

ENERGY FROM WASTE

**Wednesday 13th March 2019 after the 7.00 p.m. AGM
at
EDF Energy Lecture Theatre, Barnwood, Gloucester GL4 3RS**

Have you ever wondered what is going on at the construction site near junction 12 of the M5? The answer is, of course, the building of Gloucestershire's new "Energy from Waste" facility. The construction of this facility is part of a joint venture between Urbaser and Balfour Beatty (UBB Gloucestershire) to provide a key element of the waste management infrastructure in line with Gloucestershire's Joint Municipal Waste Management Strategy. It is scheduled to be operational in July 2019.

The UBB Community Liaison Officer, Diane Green, and the GEFW Maintenance Manager, Andrew Evans, will come and talk to us about the new facility. Following the presentation, there will be an opportunity for questions.
