

REAL WORLD FUEL CELL INSTALLATIONS

Thursday 18th July 2019 at 7.30 pm
at

EDF Energy Lecture Theatre, Barnett Way, Barnwood, Gloucester GL4 3RS

Beth from Fuel Cell Systems Ltd will give an overview of hydrogen and fuel cell technology and the types of systems available today. She will then talk through a range of real world fuel cell installations that her company has delivered, everything from powering weather stations in the Arctic to MW systems to power buildings. FCSL have also been active within the burgeoning automotive sector and have delivered hydrogen refuelling solutions for Toyota, Hyundai and Suzuki vehicles. She will bring a portable fuel cell with her as a demonstration.

Speaker: **Beth Dawson,**
Major Projects Manager,
Fuel Cell Systems Ltd

Beth previously spent thirteen years at Johnson Matthey Fuel Cells Ltd, selling catalysed fuel cell components to customers across Europe. She became the Major Projects Manager

at FCSL in July 2016. Her focus is now on deployment of full fuel cell systems and hydrogen fuelling mechanisms, taking the lead in a variety of funded and commercial projects. She retains an active position in the Swindon Hydrogen Hub community, as well as Hydrogen London and the UK Hydrogen and Fuel Cell Association.

Date: Thursday 18th July 2019

Time: 19:00 for a 19:30 start **FREE to attend and non-members WELCOME**

Venue: EDF Energy Lecture Theatre, Barnwood GL4 3RS (map)
