WEBINAR

TWIN PASSENGER ELEVATOR

Unlike the traditional elevators using 1 car in only 1 shaft, TWIN passenger elevator is the industry's first system features two independent cars, one on top of the other, in one shaft with a boost of conveyance capacity in a far smaller space.

The Hong Kong's first TWIN passenger elevator system has now been applying in Hong Kong Sanatorium Hospital. This webinar will let you understand the overview, benefits, design, construction and operation considerations of TWIN passenger elevator.
