

**IMechE Young Member Section Committee Election, 2021-2022**

**Name**

Ms WU Ying Kiu Rachel

**Post**

Chairman

**Biographical information**

Ms Rachel Wu obtained her Bachelor Degree in Mechanical Engineering and Master Degree in Building Services Engineering from Hong Kong University of Science and Technology and University of Hong Kong respectively. She is now working in CLP Power Hong Kong Limited as an Engineer and participating in project management of transmission projects.

Ms Wu has extensive working experience in design, construction and maintenance of E&M services, especially in infrastructure projects.

**Platform statement**

It is my honor to be nominated as the chairperson of the forthcoming session. In the past three years, I have been serving the IMechE YMS as committee member and I would also like to express my great gratitude to the present committee for staying together and overcoming the difficulties in this special year.

As the current honorary treasurer of IMechE YMS, I worked with the section to plan, coordinate and deliver different projects and events for our members and those who are interested in. I also kept a close contact with young engineers and students to consolidate their needs and address their concerns. Through the joint institutional events, I managed to liaise and interface with different stakeholders and to synchronize all our affords.

In the coming session, I look forward to take a leading role serving our members and promoting mechanical engineering to the public. I aim to bring a harmonic environment to our young engineers and students and help connecting them with the industry. Last but not least, I hope all members and participants take advantage of the services we offered and be benefited for their career development.

**IMechE Young Member Section Committee Election, 2021-2022**

**Name**

Mr POON Ka Kiu Kieran

**Post**

Honorary Treasurer

**Biographical information**

Mr. Kieran Poon graduated with a Bachelor of Engineering degree in Mechanical and Automation Engineering from the Chinese University of Hong Kong. He later attained his Master of Science degree in Intelligent Building Technology and Management at the Hong Kong University of Science and Technology.

Having previously worked at the Electrical and Mechanical Services Department (EMSD) and the Drainage Services Department (DSD), Mr. Poon is now an Assistant Environmental Protection Officer at the Environmental Protection Department (EPD) of the Hong Kong SAR Government.

**Platform statement**

It is a great privilege and honor to be nominated as a candidate for the position of Honorary Treasurer of the Young Members Section. I always believe that the Young Members Section serves as a link between young engineers and the mechanical engineering industry. Through hosting a wide range of activities, we are endeavored to promote engineering and encourage knowledge exchange between our members. The recent COVID pandemic has undoubtedly been posing many challenges to the YMS. With the utilization of digital technology, we strongly trust that we can overcome the physical barriers and provide extensive support to our members in an uninterrupted manner.

**IMechE Young Member Section Committee Election, 2021-2022****Name**

Mr LO Kwun Yu Leo

**Post**

Social Media Officer

**Biographical information**

Striving to be a virtuoso aircraft engineer and creative innovator through equipping myself with diversified skills and experience, and to live an energetic and meaningful life through exploring the beauty of art, science and engineering, and to connect different people and things across my life. Graduated from the University of Hong Kong and aspired to innovate and change the world, I have chosen Aircraft Engineering to be my first step in my career. Currently working in Cathay Pacific Airways Engineering Department as Associate Technical Services Engineer, I will strive my best to ensure people well-travelled in their life. Life is short while the world is large; and I am ready to take a leap of faith to tackle any obstacles I am going to face.

**Platform statement**

Social Media has become one of the most influential tool or platform in the modern life. With the hours we spent every day browsing through articles, news and stories from friends or media all over the world, it is important that we could gain meaningful messages and knowledge from it. I, would like to utilize my role in the IMechE YMS to share more meaning and interesting ideas to our members, for the sake of spreading engineering everywhere. In the coming year, I will strive to explore different social media platforms for building up a closer relationship with our members in this ever-changing environment.
