

RAILWAY DIVISION CHAIR'S ADDRESS:
ALL CHANGE AND MIND THE GAPS

Graham Neil, Transport for London

26 September 2019 – The Quadrant (MK9 1EN) Milton Keynes, F-G10

Arrivals and refreshments from 17:00

Talk starts at 17:30 and ends around 19:00

Description

This year's address will examine the current challenges facing the rail industry, the engineering profession and our Institution and how we should work together to address these challenges. The address identifies what the Railway Division should focus on including what we need to do to move with the times and attract the next generation of potential engineers.

Speaker

Graham Neil joined London Underground LU in 1971 on a 4 year electrical apprenticeship followed by 5 years in rolling stock electronics maintenance. He then joined the rolling stock engineering department as an auxiliary equipment engineer. During this period he also introduced the replacement auto-driver boxes (ATO equipment) for the Victoria Line.

After a short period as head of LU's rolling stock electronic development department he became the rolling stock standards engineer and subsequently became the New Stock Engineer. Later he became the project engineer for the introduction of the Northern Line fleet and for delivering improvements during its reliability growth period. Since 2004 he has been the Head of Rolling Stock.

The Event is FREE and open to all!

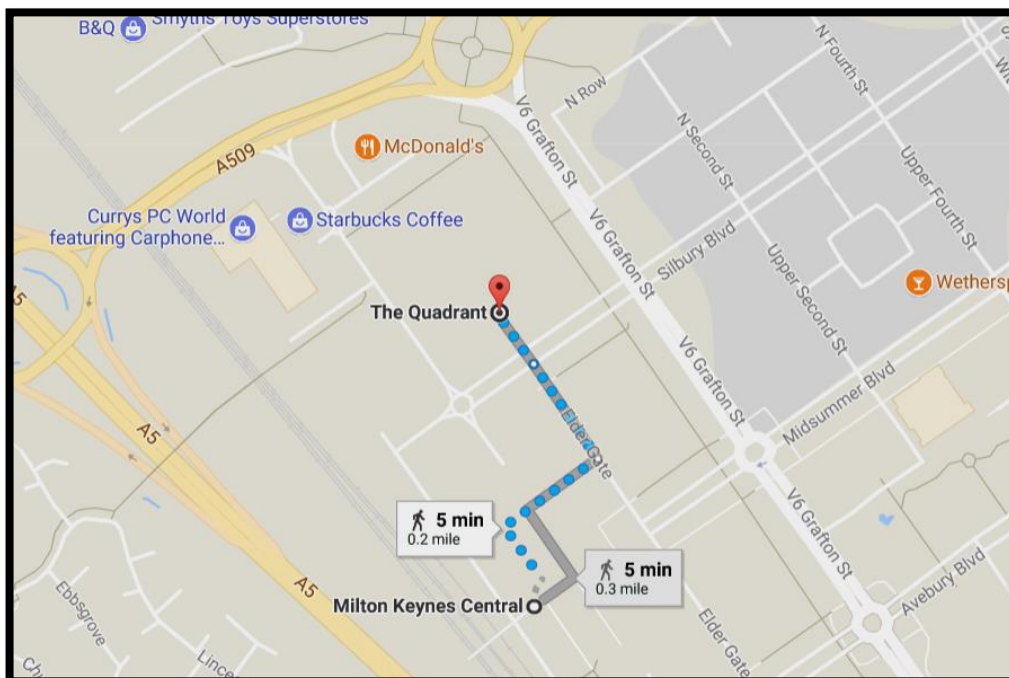

Light refreshments will be provided prior to meetings. Please book, if you can, to assist catering numbers using either the QR code or the link below. If you cannot book feel free to attend it anyway.
