

OTP Now and in the Future Malcolm Miles

20th May 2021 – On line event (please see below for booking)
Join at **17:25** – Talk starts at **17:30** and ends around **18:30**

Description:

Malcolm Miles, Professional Head of Plant at Network Rail will present an overview of development and design of on track plant to meet the future challenges of maintaining track in a safe and efficient process.

About our speakers:

Malcolm is a Chartered Mechanical Engineer who has spent 46 years in the rail Industry and has been involved with various aspects of the diverse plant portfolio since 1984. He has held numerous positions in that time, starting off in maintenance depots and has worked in regional and headquarters functional offices both within BR and Network Rail.

He is currently Network Rails Network Technical Head for Plant, responsible for the setting of policies & standards and providing the assurance frameworks under which plant is operated. His work with On-Track Plant commenced in 2010.

The Event is FREE and open to all!
