Annual Arnold Barks Christmas Lecture

THE MATHEMATICS THAT CAN STOP AN AI APOCALYPSE

Professor Nira Chamberlain OBE

Professor Stephen Hawking once said: "The development of full artificial intelligence could spell the end of the human race."

So how do you prevent an AI from taking over the world?

AI apocalypse is not necessarily robots marching down the street, there are a number of examples subtler than this. So what is the risk of AI apocalypse and can we use mathematics to calculate the probability?
