HEPWORTH BREWERY VISIT

Originally working at King and Barnes, our host Andy Hepworth was the country's youngest head brewer. When the business was sold Andy at first ventured out as a consultant, subsequently starting up The Beer Station - now Hepworth's brewery - in the Horsham rail yard in 2000. In 2016 the business relocated 'lock stock and barrel' to its present green field location.

The brewery's aim is not only to brew the finest traditional ales both alcoholic and non-alcoholic, but when doing so minimize the resultant carbon footprint
