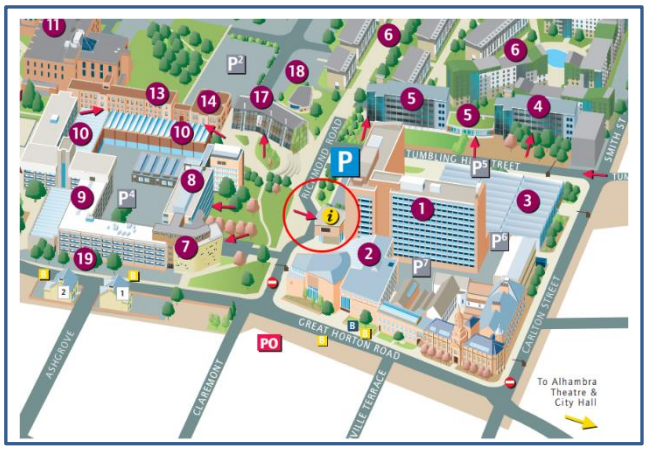
Automobile Division
Yorkshire Centre

ACCELERATING TOWARDS SUSTAINABLE TRAVEL

Andrew Fraser
Automobile Division Chairman

Institution of MECHANICAL ENGINEERS



Andrew will discuss how modern professional engineers can contribute to developing sustainable transport solutions. This presentation will explore some aspects of sustainability for various modes of transport, not just from the most common greenhouse gas "tailpipe" perspective, but also looking at other factors such as energy & materials usage, contributions to air quality, economic effects and safety.

Andrew works as a technical consultant for the Zemo Partnership, a government-industry partnership, helping accelerate transport to zero emissions. He is involved in projects relating to both CO2 and pollutant emissions reduction, from a wide range of vehicle types.

Prior to joining Zemo in 2019, Andrew spent 33 years working for Ford Motor Company.

Thursday 19th October 2023

7.00pm. Refreshments from 6:30pm

Venue: C7 lecture theatre, Richmond building (1) University of Bradford, BD7 1AZ

All welcome. This lecture contributes to CPD.
