ADVANCED APPLICATIONS OF HIGH HORSE-POWER DIESEL ENGINES

Amit Kumar CEng. MIMechE
Technical Territory Manager
Cummins UK.

Institution of MECHANICAL ENGINEERS

This talk explores unique and demanding applications of high-horsepower diesel engines across diverse sectors, including Dynamic Rotary UPS systems, large mining trucks, heavy equipment, railway locomotives, defence platforms, and amphibious vehicles.

Improving the world through engineering

Tuesday 24th February 2026

7pm to 8pm (6:30pm Refreshments).

Venue:
Lecture Theatre B (2.37)
Mechanical Engineering Building
University of Leeds
Leeds LS2 9JT

Free to attend with family and non-members all welcome to join.

This event contributes to CPD.
