THE ALL-NEW FORD TRANSIT CUSTOM:
ARCHITECTURE PHILOSOPHY AND INTEGRATION CHALLENGES

Tim Winstanley
Ford Motor Company. Commercial Vehicle Advanced Hardware Integration Manager.

Institution of MECHANICAL ENGINEERS

Join this in person lecture about the all-new 1-tonne Ford Transit Custom. The talk will cover an overview of the expanded product portfolio including Van and Bus, ICE and EV propulsion options and new customer features; followed by a review of the key architectural philosophy and mechanical integration challenges to deliver this product range.
