Improving the world through engineering

SPIC

South China Industrial Base
華南產業基地

R&D and manufacturing of carbon paper, membrane material, liquid-cooled fuel cell and system

碳紙、膜材料、水冷燃料電池及系統研發制造

About the Visit

An exclusive one-day tour to Foshan “South China Industrial Base” to get an inside look at the fascinating world of carbon paper manufacturing!

During this immersive experience, you will witness firsthand the precision and expertise that goes into producing high-quality carbon paper. In collaboration with SPIC (State Power Investment Corporation), you will tour their state-of-the-art carbon paper factory in Foshan.

Don't miss out on this extraordinary opportunity to expand your industry knowledge, connect with experts, and explore the captivating world of Mechanical Engineering. Secure your spot today and be part of this exclusive IMechE tour to Foshan!
