Carbon Neutrality Seminar Series

Green Building and Construction Technologies cum Practices

FREE of Charge

31 Oct 2022, 2:15pm - 4:45pm	SME One Foyer, G/F, HKPC Building (80 pax) & via Zoom (300 pax)	Cantonese	Those who are interested in Carbon Neutrality in Green Building and Construction

Seminar Description

Taking decisive action to address climate change is integral to Hong Kong's sustainable development. Hong Kong has pledged to achieve carbon neutrality by 2050 and outlined decarbonisation strategies. Achieving carbon neutrality before 2050 is challenging and requires the participation of the whole community.

In July 2022, HKPC has organised a "Hong Kong Industry Network Clusters (HK-INC)" consultation session themed "Advancing to Carbon Neutrality: Opportunities and Challenges" to gauge the views of the industry on this issue. HK-INC revealed strong industry needs for capacity building on carbon neutrality. With our mission to assist Hong Kong industries and enterprises to move up their value chain, enhance competitiveness in both local and overseas marketplace, HKPC will take the lead to organise a series of Carbon Neutrality seminars to assist Hong Kong Industries and enterprises to gain knowledge on achieving Carbon Neutrality.

This is the first seminar of the Series which focuses on Green Building and Construction Technologies cum Practices. Respected speakers will talk about various green building and construction technologies that are contributing to reaching Carbon Neutrality.

Enrolment method

1. Scan the QR code and apply online.
2. Click the link below to apply online.

Itinerary

Time (pm)	Speaker	
2:15 – 2:30		**Registration**
2:30 – 2:35		**Dr Lawrence CHEUNG** Chief Innovation Officer of Hong Kong Productivity Council Welcome Speech
2:35 – 2:55		**Ir Dr Cary CHAN** Executive Director of Hong Kong Green Building Council **Topic: HKGBC's Initiatives Towards Carbon Neutrality**
2:55 – 3:15		**Professor Jeslie CHUI** Adjunct Professor of City University of Hong Kong, Head of Corporate Advisory CCTH **Topic: Green Finance**
3:15 – 3:35		**Professor C.S. POON** Director of Research Centre for Resources Engineering towards Carbon Neutrality, Michael Anson Professor in Civil Engineering, Chair Professor of Sustainable Construction Materials, Head of Department of Civil and Environmental Engineering, Hong Kong Polytechnic University **Topic: Development of Low Carbon Construction Materials for Hong Kong**
3:35 – 3:55		**Professor Michael LEUNG** Shun Hing Education and Charity Fund Professor of Energy and Environment Professor of City University of Hong Kong **Topic: Nano Coating for Improving Energy Efficiency of Centralised Air Conditioning System**
3:55 – 4:15		**Ir Kenny WONG** Head of Carbon and Environmental Excellence of the Green Living and Innovation Division, Hong Kong Productivity Council **Topic: Carbon Neutral: Our Common Goal**
4:15 – 4:45		**Panel Discussion**
