

WESTERN AEROSPACE CENTRE PRIZE COMPETITION 2017 PRESENTATION EVENING

Institution of
**MECHANICAL
ENGINEERS**

The purpose of the prize is to encourage the further professional development of young engineers living and working in the West of England and South Wales, following graduation with a first degree. The finalists of the Western Aerospace Centre 2017 Prize will present their work to senior members of the Western Region's aerospace industry and academia with the hope of taking first prize.

WHERE: Queen's Building, University of Bristol - Bristol
WHEN: 24th April 2017, 6pm for a 6:30pm start
WHO: All members and non-members welcome, no tickets required.

FINALISTS:

Robert Fanner (Airbus) - *The Bristol Eco Flyer*

David Bacci (Cranfield) - *Weapons Bay Design to Improve Aero-acoustics*

Georgia Charalambous (Rolls-Royce) - *Modelling the Effect of Temperature on Delamination Failure of Composite Structures*

Evangelos Zypeloudis (University of Bristol) - *Enabling Nature Inspired Composite Aircraft Designs: Continuous Tow Shearing*
